Note:

The information in this brochure comes from data provided to the Department of Health by Washington hospitals. The data are grouped into illness categories, called Diagnosis Related Groups, or DRGs. They combine similar diagnoses and treatments.

The charges listed are averages for items and services provided by hospitals, based on the number of patients and total charges for that illness as reported in 1994. Doctor fees are not included. Figures include charges for the hospital room, hospital services ordered by a doctor (such as x-rays and laboratory tests), and personal care items (such as hospital gowns). Very high or low charges and very long or short stays are not included in the averages.

Because these figures are averages, they may be different from what you are billed.
